GROUP 3600

Dear Sir:

In response to the Office Action mailed July 2, 2003, the claims of this application are being resubmitted in unamended form for reconsideration in view of the following remarks.

Claims 1, 13, 32 and 33 stand rejected under 35 U.S.C. §112, first paragraph. *According to the Examiner*, the specification does not state how the sheathing is "removable and replaceable." *Further still*, is noted that the specification ... does not describe in any way nor does not it even mention that the sheathing is 'removable' or 'replaceable.'" The Examiner is incorrect. In establishing a disclosure, an Applicant may rely not only on the description and drawing as filed *but also on the original claims of their content justifies it*. "The claims should not be attacked either objection or rejection because the subject matter is lacking in the drawing and the specification." See MPEP §608.01(I). The claims as originally filed *disclose* all of the subject matter to which the Examiner objects, including the relationship between the diameters of the various, the removable fittings, and the ability to "remove and replace" the sheathing. If necessary, Applicant is prepared to amend the non-claimed portion of the specification to import language from the claims.

With regard to the rejection under 35 U.S.C. §112, second paragraph, Applicant believes all of the claims referenced by the Examiner are perfectly understandable, and that "awkwardness" is not a grounds for rejection.

With regard to the rejections under 35 U.S.C. §103, Applicant rests on all of the arguments previously made of record.

Respectfully submitted,

By: _____
